Good to see you too, Augie.

Thanks for sending along these 'before and after' photos about how easy it is to transform public spaces with paint. I've seen many of these murals, in my ongoing search for inspiration and so glad you (and the PBID) have drunk the mural cool-aide.

We have approached the folks at the building on 6<sup>th</sup> and Mesa about allowing a mural on their building, perhaps it's time to ask them again?

Finding willing property owners and the funding is the hardest part of this process.

We have been raising awareness and finding willing property owners to paint more murals on our Gaffey Great Street on and around the San Pedro Library.

Hoping I can prove a nexus with the Tidelands requirements to vie for a Port Community Grant.

Appreciate all that you do for this community, thank you!

Hi Linda,

It was nice to run into you at the PBID meeting today and what wonderful news regarding the availability of additional funds for the 2017 Mural program. Someone sent me this e-mail not long ago and I was dying to show someone and the timing could not be better. Looking at the after and then before shots of the various building (and stairs) below. They really show you how you can transform a building (or I'm just easily impressed, lol). The building on the Northwest corner of 6<sup>th</sup> and Mesa (caddy-corner from Niko's) comes to mind. It's such an ugly building (the side facing Mesa) and a transformation could do wonders for downtown. Anyway, enjoy the rest of your day!

Cheers,  
Augie
